

REFEREED PUBLICATIONS

1. "Electron Energy Bands of One-Dimensional Random Alloys," (This paper was reprinted in a collection "Lattice Vibrations and Impurity Levels" brought out by the Japanese Physical Society for their domestic members.) J. S. Faulkner and J. Korringa, Phys. Rev. **122**: 390 (April 1961).
2. "Constructing the Spin Hamiltonian for an N-Electron System," J. S. Faulkner, Phys. Rev. **128**: 202 (November 1962).
3. "Approximate Linear Dependence, Scaling, and Operator Convergence in the Harmonic Oscillator Problem," J. O. Nordling and J. S. Faulkner, J. Mol. Spectrosc. **12**: 171 (February 1964).
4. "Electronic States of Kronig-Penney Crystal with Random Atomic Positions," J. S. Faulkner, Phys. Rev. **135**(1A): A124-30 (July 6, 1964).
5. "Calculation of Constant-Energy Surfaces for Copper by the Korringa-Kohn-Rostoker Method," J. S. Faulkner, H. L. Davis, and H. W. Joy, Phys. Rev. **161**(3): 656-64 (September 1967).
6. "Calculation of the Band Structure for Copper as a Function of Lattice Spacing," H. L. Davis, J. S. Faulkner, and H. W Joy, Phys. Rev. **167**(3): 601-07 (March 1968).
7. "Calculation to Constant-Energy Surfaces for Aluminum by the Korringa-Kohn-Rostoker Method," J. S. Faulkner, Phys. Rev. B **178**(3): 914-18 (February 1969).
8. "Electronic States of a Liquid Metal from the Coherent-Potential Approximation," J. S. Faulkner, Phys. Rev. B **1**(2): 934-36 (January 1970).
9. "KKR Structure Constants for Complex Crystals," J. S. Faulkner, Phys. Lett. **31A**(5): 227-28 (March 1970).
10. "Electronic States in Disordered Alloys: Comparison of Methods," J. S. Faulkner, G. M. Stocks, N. H. March, P. Gibbs, Int. J. Quant. Chem. **5**(Symp. 5): 543-53 (December 1971).
11. "Densities of States in Cu-Rich Ni-Cu Alloys by the Coherent-Potential Approximation: Comparisons with Rigid-Band and Virtual-Crystal Approximation," G. M. Stocks, R. W. Williams,, and J. S. Faulkner, Phys. Rev. Lett. **26**(5): 253-56 (February 1971).
12. "Densities of States of Paramagnetic Cu-Ni Alloys," G. M. Stocks, R. W. Williams, and J. S. Faulkner, Phys. Rev. B **4**(12): 4390-405 (December 1971).
13. "Copper-Zinc Alloys as Treated by Virtual Crystal and Related Approximations," N. H. March, P. Gibbs, G. M. Stocks, and J. S. Faulkner, J. Phys. (Paris) Colloq. **33**: C3-259-C3-267 (May-June 1972).

14. "Electronic States in Ag-Pd Alloys," G. M. Stocks, R. W. Williams, and J. S. Faulkner, *J. Phys. F: Metal Phys.* **3**: 1688-703 (September 1973).
15. "Studies on Disordered Muffin Tin Potentials," J. S. Faulkner, G. S. Painter, W. H. Butler, and W. A. Coglan, *J. Phys. (Paris) Colloq.* **C4** 35(3): 85-87 (May 1974).
16. "Non-Muffin -Tin Effects in the 4d Transition Metals Rb, Nb, and Pd," G. S. Painter, J. S. Faulkner, and G. M. Stocks, *Phys. Rev. B* **9**(6) 2448-56 (March 15, 1974).
17. "Electronic States of Sub-Stoichiometric Compounds and Application to Palladium Hydride," J. S. Faulkner, *Phys. Rev. B* **13**(6): 2391-97 (March 1976).
18. "Electronic States in Disordered Alloys II: Results from Real Solids," J. S. Faulkner, *Int. J. Quant. Chem.* **10**: 405 (1976).
19. "Electron-Phonon Interaction in Cubic Systems: Application to Niobium," W. H. Butler, J. J. Olson, and J. S. Faulkner, *Phys. Rev. B* **14**(9): 3823-36 (November 1, 1976).
20. "Spectral Density Functions for Amorphous Solids," D. G. Hall and J. S. Faulkner, pp. 800-06 in *Proc. Conf. Neutron Scattering Vol. II, CONF-760601-P2* (1976).
21. "The effects of Short-Range Order on the Spectral Density Function for a One-Dimensional Amorphous Solid," D. G. Hall, and J. S. Faulkner, *Phys. Rev. B* **15**(12): 5850-57 (June 1977).
22. "The Fermi Surface of Technetium from a Constant-Energy-Search Korringa-Kohn-Rostoker Band-Theory Calculation," J. S. Faulkner, *Phys. Rev. B* **16** (2): 736-40 (July 1977).
23. "Scattering Theory and Cluster Calculations," J. S. Faulkner, *J. Phys. C: Solid State Phys.* **10**: 4661-70 (June 1977).
24. "Coherent Potential Approximation Calculations for PdH_x ," D. A. Papaconstantopoulos, B. M. Klein, J. S. Faulkner, and L. L. Boyer, *Phys. Rev. B* **18**(6): 2784-91 (September 1978).
25. "Multiple-Scattering Approach to Band Theory," J. S. Faulkner, *Phys. Rev. B* **19**(12): 6186-206 (June 1979).
26. "Calculating Properties with the Coherent-Potential Approximation," J. S. Faulkner, and G. M. Stocks, *Phys. Rev. B* **21**(8): 3222-44 (April 1980).
27. "Multiple Scattering Theory of Electrons in Ordered and Disordered Solids," J. S. Faulkner, pp. 198-206 in the Proceedings of the 11th Annual Symposium on Electronic Structure of Metals and Alloys, April 6-10, 1981, Gaussig, East Germany.

28. "Theory of the Specific Heat Coefficient of a Hume-Rothery Alloy," J. S. Faulkner and G. M. Stocks, Phys. Rev. B **23**(10): 5628-31 (May 1981).
29. "Multiple-Scattering Approach to Band Theory II; Fast Band Theory," J. S. Faulkner and T. P. Beaulac, Phys. Rev. B **26**(4), 1597 (August 15, 1982).
30. "Non-Muffin-Tin Band Theories of the Multiple-Scattering Type," J. S. Faulkner, Phys. Rev. B, **31**(12), 1339-42 (1985).
31. "Preliminary Study of the Thermal Expansion Coefficients of Long-Range-Ordered Aluminides," T. Leventouri, O. B. Cavin, and J. S. Faulkner, Phys. Rev. B **31**(11), 7436-39 (1985).
32. "Electronic States in Disordered Solids, III. Applications to Materials Science," J. S. Faulkner, Int. J. Quant. Chem. Sym. **19**, 579-93 (1986).
33. "Self-Consistent Electronic Structure of Alpha-Phase Hume-Rothery Electron Compound Alloys Cu_cZn_{1-c}, Cu_cGe_{1-c}," G. M. Stocks, M. Boring, D. M. Nicholson, F. J. Pinski, D. D. Johnson, J. S. Faulkner, and B. L. Gyorffy, pp. 27-47 in Noble Metal Alloys, T. B. Massalski, W. B. Pearson, L. H. Bennett, and Y. A. Chang, eds. (Metallurgical Society, Inc., Warrendale, Penn., 1986).
34. "Non-muffin-tin potentials in multiple-scattering theory," J. S. Faulkner, Phys. Rev. B **34**, 5931(1986).
35. "The Theory of Metallic Alloys," J. S. Faulkner in *Alloying* edited by John L. Walter, Melvin R. Jackson, and Chester T. Sims (ASM International, Metals Park, Ohio, 1988).
36. "Multiple scattering calculations in two dimensions," J. S. Faulkner, Phys. Rev. B **38**, 1686 (1988).
37. "Applications of the quadratic Korringa-Kohn-Rostoker band theory method," D. M. Nicholson and J. S. Faulkner, Phys. Rev. B **39**, 8187 (1989).
38. "Growth and orientation of crystallites in Y-Ba-Cu-O superconductors," Th. Leventouri, M. Calamiotou, V. Perdikatis and J.S. Faulkner, J. Appl. Phys. **66**, 3144 (1989).
39. "Bulk preferred orientation in superconducting YBa₂Cu₃O_x," Th. Leventouri, E. Liarokapis, and J. S. Faulkner, Solid State Communications **74**, 1103 (1990).
40. Comment on "Exact Eigenvalue Equation for a Finite and Infinite Collection of Muffin Tin Potentials," A. Gonis, R. Zeller, P. H. Dederichs, J. S. Faulkner, B. L. Györffy, D. M. Nicholson, G. M. Stocks, L. T. Wille, X. -G. Zhang, Phys. Rev. B **41**, 10224 (1990).

41. "Structure and Properties of Bulk Oriented $\text{YBa}_2\text{Cu}_3\text{O}_x$," Th. Leventouri, E. Liarokapis, J. S. Faulkner, M. Calamiotou, V. Perdikatsis, Y. S. Hascicek, L. R. Testardi, *J. Less Common Metals*, **164&165**, 1142, (1990).
42. "Multiple-scattering theory and the quadratic Korringa-Kohn-Rostoker method," J. S. Faulkner, Eva A. Horvath, and D. M. Nicholson, *Phys. Rev. B* **44**, 8467 (1991).
43. "Development of the quadratic Korringa-Kohn-Rostoker band theory method," J. S. Faulkner, *International Journal of Quantum Chemistry*, **42**, 1025 (1992).
44. "Applications of the quadratic Korringa-Kohn-Rostoker band theory method to complex lattices," Yang Wang, J. S. Faulkner, and D. M. Nicholson, *Phys. Rev. B* **45**, 1425 (1992).
45. "Requirements for the Observation of Fermi Surfaces in Disordered Alloys." J. S. Faulkner and G. M. Stocks, in "Physical Phenomena in High Magnetic Fields," edited by E. Manousakis, P. Schlottmann, K. Bedell, and F. M. Mueller, Addison-Wesley Publishing Co., Redwood City, Ca. 1992.
46. "Studies of the Bulk Orientation in Y and Bi Superconducting Phases," Th. Leventouri, O. Papageorgiou, E. Liarokapis, J. S. Faulkner, H. Lu, M. Calamiotou, N. Guskos, L. Martinez, V. Perdicatis, and B. D. Landreth, *High-Temperature Superconductors, Materials Aspects*, **1**, 245 (1992).
47. "Processing and Properties of Bulk Textured $\text{YBa}_2\text{Cu}_3\text{O}_x$," Th. Leventouri, J. S. Faulkner, F. D. Medina, L. Martinez, E. Liarokapis, Y. S. Hascicek, L. R. Testardi, M. Calamiotou, V. Perdikatsis, B. D. Landreth, *NATO ASI Series E: Applied Sciences*, Vol. 209, edited by R. Kossowsky, B. Ravenau, D. Wohlleben, and S. Patapis, Kluwer Academic Publishers, the Netherlands, 1992.
48. "Experiences with the quadratic Korringa-Kohn-Rostoker band theory method," J. S. Faulkner, *Applications of Multiple Scattering Theory to Materials Science*, ed. by W. H. Butler, P. H. Dederichs, A. Gonis, and R. L. Weaver, (*Mater. Res. Soc. Proc.* 253, 1992).
49. "The Direct Monte Carlo Method for Calculating Alloy Phases," J. S. Faulkner, Eva. A. Horvath, Yang Wang, and G. M. Stocks in the proceedings of *Statics and Dynamics of Alloy Phase Transitions*, *NATO ASI Series B: Physics*, Vol. 319, edited by P. E. A. Turchi and A. Gonis, Kluwer Academic Publishers, the Netherlands, 1993.
50. "Single Impurity Calculations using the Quadratic Korringa-Kohn-Rostoker Method," A. N. Andriotis, J. S. Faulkner, and Yang Wang, *Solid State Communications*, **84**, 267 (1992).
51. "Calculations of Alloy Phases with a Direct Monte-Carlo Method," J. S. Faulkner, Yang Wang, Eva A. Horvath, and G. M. Stocks in the proceedings of *Materials Theory and Modelling*, edited by P. D. Bristowe, J. Broughton, and J. M. Newsom (*Mater. Res. Soc. Proc.* 291, 1992).

52. "The structure of palladium rhodium alloys below their melting points," Yang Wang, J. S. Faulkner, and G. M. Stocks, Phys. Rev. Letters, **70**, 3287 (1993).
53. "Calculating phase boundaries in metallic alloys," J. S. Faulkner, Yang Wang, and G. M. Stocks, in the proceedings of the NATO-ARW *Metallic Alloys: Experimental and Theoretical Perspectives*, NATO ASI Series E: Applied Sciences, Vol. 256, edited by J. S. Faulkner and R. G. Jordan, Kluwer Academic Publishers, the Netherlands, 1994.
54. "Alloy Phases Calculated with an Embedded Cluster and Monte Carlo Method," J. S. Faulkner, Yang Wang, and G. M. Stocks, *Alloy Modeling and Design*, edited by G. M. Stocks and P. E. A. Turchi, The Minerals, Metals, and Materials Society, Warrendale, Pennsylvania, 1994.
55. "A general method for evaluating shape-truncation functions of Voronoi polyhedra," Yang Wang, G. M. Stocks, and J. S. Faulkner, Phys. Rev. B **49**, 5028 (1994).
56. "The scattering matrices for a non-spherical scalar-relativistic potential," J. S. Faulkner, Solid State Communications, **90**, 791 (1994).
57. "Electrons in extended systems," J. S. Faulkner, Yang Wang, and G. M. Stocks, Phys. Rev. B **52**, 17 106 (1995).
58. "Contributions to the Total Energy of Random Alloys," J. S. Faulkner, Yang Wang, and G. M. Stocks, in the proceedings of the NATO-ASI *Stability of Materials*, NATO ASI Series B: Physics, Vol. 355, edited by A. Gonis, P. E. A. Turchi, and J. Kudrnovsky, Plenum Publishing Corp., New York, 1996.
59. "Energetics of Alloys," J. S. Faulkner, Yang Wang, Nassrin Moghadam, and G. M. Stocks, *Properties of Complex Inorganic Solids* edited by A. Gonis, A. Meike, and P. E. A. Turchi, Plenum Press, New York, 1997.
60. "Calculation of solution energies within the quadratic Korringa-Kohn-Rostoker method," D. Zaharioudakis, J. S. Faulkner, and A. N. Andriotis, *Properties of Complex Inorganic Solids* edited by A. Gonis, A. Meike, and P. E. A. Turchi, Plenum Press, New York, 1997.
61. "Coulomb energies in alloys," J. S. Faulkner, Yang Wang, and G. M. Stocks, Phys. Rev. B **55**, 7 492 (1997).
62. "A note on the individual pair displacements in $\text{Fe}_{46.5}\text{Ni}_{53.5}$ and $\text{Fe}_{22.5}\text{Ni}_{77.5}$," J. S. Faulkner, Phys. Rev. B **56**, 2299 (1997).
63. "Coulomb energies in disordered alloys and improvements on the coherent potential approximation," J. S. Faulkner, Yang Wang, and G. M. Stocks, Journal of Phase Equilibria, **18**, 499 (1997).
64. "An evaluation of isomorphous models of alloys," J. S. Faulkner, Nassrin Moghadam, Yang Wang, and G. M. Stocks, Phys. Rev. B **57**, 7653 (1998).

65. "Utilization of locally shifted potentials in approximate electronic structure calculations," D. Zaharioudakis, J. S. Faulkner, and A. N. Andriotis, *Journal of Physics: Condensed Matter* **10**, 1813 (1998).
66. "Core Level Chemical Shifts in Metallic Alloys" J. S. Faulkner, Yang Wang, and G. M. Stocks, *Phys. Rev. Lett.* **81**, 1905 (1998).
67. "Comparison of the Electronic States of Alloys from the Coherent Potential Approximation and an Order-N Calculation" J. S. Faulkner, Nassrin Moghadam, Yang Wang, and G. M. Stocks, *Journal of Phase Equilibria* **19**, 538 (1998).
68. "Understanding the electronic states and properties of metallic alloys with the help of order-N calculations," J. S. Faulkner, N. Y. Moghadam, Yang Wang, and G. M. Stocks, in *Computational Modeling and Simulation of Materials*, edited by Pietro Vincenzini, (TECHNA srl, Faenza, Italy, 1999).
69. "Application of the screened Korringa-Kohn-Rostoker method," Nassrin Y. Moghadam, G. M. Stocks, B. Ujfalussy, W. A. Shelton, A. Gonis, and J. S. Faulkner, *J. Phys.: Condens. Matter* **11**, 5505 (1999).
70. "Faulkner, Wang, and Stocks Reply" J. S. Faulkner, Yang Wang, and G. M. Stocks, *Phys. Rev. Lett.* **83**, 3572 (1999).
71. "Calculating properties with the polymorphous coherent potential approximation" B. Ujfalussy, J. S. Faulkner, N. Y. Moghadam, G. M. Stocks, and Yang Wang, *Phys. Rev. B*, **61**, 12005 (2000).
72. "TESTS OF THE POLYMORPHOUS COHERENT POTENTIAL APPROXIMATION" J. S. Faulkner, B. Ujfalussy, N. Y. Moghadam, G. M. Stocks, and Yang Wang, *Properties of Complex Inorganic Solids 2* edited by A. Meike, et al., Kluwer Academic/Plenum Publishers, page 199, New York (2001).
73. "Angular momentum convergence of KKR Green's function methods" Nassrin Y. Moghadam, G. M. Stocks, X-G Zhang, D. M. C. Nicholson, W. A. Shelton, Yang Wang, and J. S. Faulkner, *J. Phys.: Condens. Matter* **13**, 3073 (2001).
74. "The Mathematics of the Polymorphous Coherent Potential Approximation" J. S. Faulkner, B. Ujfalussy, N. Moghadam, G. M. Stocks, and Yang Wang, *J. Phys.: Condens. Matter*, **13**, 8573 (2001).
75. "Ergodicity in the polymorphous coherent potential approximation" J. S. Faulkner, *Phys. Rev. B* **64**, 233113 (2001).
76. "Calculation of static and thermal displacements in metallic alloys," Yevgeniy Puzyrev and J. S. Faulkner, *Computer Simulation Studies in Condensed Matter Physics XV*, Eds. D. P. Landau, S. P. Lewis, and H. B. Schüttler, Springer Verlag, Heidelberg, Berlin, 2002.

77. "SHORT-RANGE ORDER PARAMETERS IN FCC BINARY ALLOYS," J. S. Faulkner, Silvia Pella, Aurelian Rusanu, and Yevgeniy Puzyrev, *An Interdisciplinary Approach to the Science of Alloys in Metals, Minerals and Other Materials Systems* edited by A. Gonis, A. Meike, P.E.A. Turchi , and K. Rajan, Kluwer Academic Publishers, Dordrecht, 2003.
78. "Electronic structure calculations on alloys using the Polymorphous Coherent-Potential Approximation" S. Pella, J. S. Faulkner, G. Malcolm Stocks, and Balazs Újfalussy, Phys. Rev. B 70, 064203 (2004).
79. "Mean-field approximations for the electronic states in disordered alloys" J. S. Faulkner, S. Pella, A. Rusanu, Y. Puzyrev, Th. Leventouri, G. M. Stocks, and B. Ujfalussy, Phil. Mag. **86**, 2661 (2006).
80. "Calculation of static and thermal displacements in metallic alloys", Y. S. Puzyrev, J. S. Faulkner, *Computer Simulation Studies in Condensed-Matter Physics XV* Springer Proceedings in Physics, Vol. 90, David P. Landau, Steven P. Lewis, Heinz-Bernd Schüttler, (Eds.) Springer Verlag, Berlin, 2005, p. 137.
81. "Atomic displacements in alloys" Yevgeniy Puzyrev and J. S. Faulkner, Metallurgical and Materials Transactions A, **37**, 3387 (2006)
82. "Molecular dynamics study of atomic displacements and diffuse scattering", Y. Puzyrev, J. S. Faulkner, *Computer Simulation Studies in Condensed-Matter Physics XVII*, Springer Proceedings in Physics, Vol. 105, David P. Landau, Steven P. Lewis, Heinz-Bernd Schüttler, (Eds.) Springer Verlag, Berlin, 2007, p. 71.
83. "Teraflop Computing for Nanoscience" Yang Wang, G. M. Stocks, Aurelian Rusanu, D. M. C. Nicholson, Markus Eisenbach, J. S. Faulkner, CDES/2006, Hamid R. Arabnia and Mary Mehrnoosh Eshaghian-Wilner eds., CSREA Press, 2006, p 265.
84. "50 years of multiple scattering theory" J. S. Faulkner, Molecular Physics, **108**: 21, 3189 (2010).
85. "Green's functions in full-potential multiple-scattering theory" Aurelian Rusanu, G. M. Stocks, Yang Wang, J. S. Faulkner, Phys. Rev. B **84**, 035102 (2011).
86. "The single-site Green's function and Krein's theorem" Yang Wang, G. M. Stocks, J. S. Faulkner, *Journal of Physics: Condensed Matter* **26**, 274208 (2014).

BOOKS

1. *The Modern Theory of Alloys*, J. S. Faulkner, published as Volume 27 of the series Progress in Materials Science, edited J. W. Christian, P. Haasen, and T. B. Massalski, Pergamon Press, Oxford, England, 1982.

2. *Metallic Alloys: Experimental and Theoretical Perspectives*, NATO ASI Series, Series E: Applied Sciences - Vol. 256, edited by J. S. Faulkner and R. G. Jordan, Kluwer Academic Publishers, Dordrecht, the Netherlands, 1994.
3. "Scattering methods (for electronic structure calculations)" J. S. Faulkner, contribution to the *Encyclopedia of Condensed Matter Physics*, edited by G. Bassani, G. Liedl, and P. Wyder, Elsevier Ltd, Oxford, UK, (2005).
4. "Impurity and defect states in metals and alloys" J. S. Faulkner, contribution to the *Encyclopedia of Condensed Matter Physics*, edited by G. Bassani, G. Liedl, and P. Wyder, Elsevier Ltd, Oxford, UK, (2005).
5. *The Sparrow*, Sam Faulkner, an e-book novel based on real science, Kindle Direct Publishing, 2012.
6. *Multiple Scattering Theory: Electronic structure of solids*, J. S. Faulkner, G. M. Stocks, and Yang Wang, IOP Publishing, Temple Circus, Temple Way, Bristol, UK (2019).

INVITED TALKS

1. "Developments in the Band Theory of Disordered Systems," J. S. Faulkner, Meeting of the Southeastern Section of American Physical Society, University of Virginia, Charlottesville, November 1, 1965.
2. "Electron States in Disordered Systems," J. S. Faulkner, Liquid Metals Forum, Queen Mary College, University of London, March 1969.
3. "The Electronic States in Copper and Aluminum," J. S. Faulkner, Fall Meeting of the Metallurgical Society of AIME, Philadelphia, October 13-16, 1969.
4. "Electronic States in Disordered Alloys: Comparison of Methods," J. S. Faulkner, International Symposium of Atomic, Molecular, and Solid State Theory and Quantum Biology, Sanibel Island, Florida, January 18-23, 1971.
5. "Application of the CPA to Noble and Transition Metal Alloys," J. S. Faulkner, Gordon Research Conference on the Dynamics of Quantum Solids and Fluids, Beaver Dam, WI, July 1972.
6. "Calculation of the Superconducting Transition Temperature of the BCC Transition Metals," W. H. Butler, J. S. Faulkner, and J. J. Olson, 1975 Southeastern Regional Meeting of the American Physical Society, Auburn, Alabama, November 13-15, 1975.
7. "The Theory of Excitations in Disordered Solids," J. S. Faulkner, International Symposium on Atomic, Molecular, and Solid State Theory, Sanibel Island, Florida, January 18-24, 1976.

8. "Electronic Structure of Substoichiometric Compounds with Application to PdH_X." J. S. Faulkner, Workshop on Electronic Structure and Phase Stability of Metals and Alloys, Liege, Belgium, September 1976.
9. "Electronic States in Disordered Solids," J. S. Faulkner, 7th International Symposium on Electronic Structure of Metals and Alloys, Gaussig, East Germany (Soviet Bloc) April 18-22, 1977.
10. "Electronic States in Metals and Alloys," J. S. Faulkner, TMS-AIME Fall Meeting, Chicago, Illinois., October 24-27, 1977.
11. "Calculating Properties with the Coherent-Potential Approximation," J. S. Faulkner and G. M. Stocks, Midwest Solid State Theory Conference, Columbus, Ohio, October 8-9, 1979.
12. "Multiple Scattering Theory of Electrons in Ordered and Disordered Solids," J. S. Faulkner, Eleventh Annual Symposium of the Electronic Structure of Metals and Alloys," Gaussig, East Germany, April 6-10, 1981.
13. "The Quantum Mechanical Theory of Alloys," J. S. Faulkner, Alloy Theory and Development Workshop, Los Alamos, New Mexico, September 8-10, 1982.
14. "Alloy Theory and Application," J. S. Faulkner, Gordon Conference on Physical Metallurgy, Andover, New Hampshire, July 23-27, 1984.
15. "Ab Initio Theory of the Electronic Structure of the Hume-Rothery Alloys," G. M. Stocks, J. S. Faulkner, M. Boring, F. J. Pinski, and D. D. Johnson, Symposium on Noble Metal Alloys, AIME Annual Meeting, New York, February 1985.
16. "The Modern Theory of Alloys," J. S. Faulkner, International Sanibel Symposium, St. Augustion, Florida, March 18-23, 1985.
17. "Non-Muffin-Tin Effects in Multiple-Scattering Theory," J. S. Faulkner, CCP9 Study Weekend, Cosener's House, Abingdon, England, October 26-27, 1985.
18. "Calculation of Electron Correlations in High-Tc Superconductors." J. S. Faulkner, Workshop on Electronic Mechanisms for High Temperature Superconductivity, University of Miami, January 26,27, 1990.
19. "Operations of the Alloy Research Center at FAU." Workshop on Theory and Modeling at the Southeast Regional Conference on Materials Science and Engineering for the 1990s, Gainesville, Florida, September 10-ll, 1990.
20. "Speeding up the QKKR", J. S. Faulkner, Third Annual Workshop on Computational Methods for the Structure of Alloys, Lexington, Kentucky, June, 1990.
21. "Requirements for the Observation of Fermi Surfaces in Disordered Alloys."J. S. Faulkner and G. M. Stocks, presented at the meeting on Physical Phenomena in High

Magnetic Fields, May 15-18, 1991. Sponsored by the National High Magnetic Field Laboratory, Florida State University, Tallahassee, Florida.

22. "The Fermi Surfaces of Disordered Alloys.", J. S. Faulkner, Fourth Annual Workshop on Computational Methods for the Structure of Alloys, Lexington, Kentucky, June, 1991.
22. "Experiences with the quadratic Korringa-Kohn-Rostoker band theory method," presented in the symposium on Multiple Scattering Methods Applied to Materials Science at the fall meeting of the MRS, Boston, Mass., 1991.
23. "Calculations of Alloy Phases with a Direct Monte-Carlo Method," J. S. Faulkner, Eva A. Horvath, and Yang Wang, presented in the symposium on Materials Theory and Modelling at the fall meeting of the MRS, Boston, Mass., November 30-December 4, 1992.
24. "Alloy Phases Calculated With an Embedded Cluster and Monte Carlo Method," J. S. Faulkner, 1993 Materials Week, Pittsburgh, PA, October 17-21, 1993.
25. "Calculating phase boundaries in metallic alloys," J. S. Faulkner, Yang Wang, and G. M. Stocks, NATO-ARW *Metallic Alloys: Experimental and Theoretical Perspectives*, Deerfield Beach, Florida, July 16-21, 1993.
26. "Coulomb energies in disordered alloys and improvements in the coherent potential approximation," J. S. Faulkner, Yang Wang, and G. M. Stocks, *The Hume-Rothery Symposium; Alloy Modeling and Design*, The Minerals, Metals, and Materials Society, Las Vegas, Nevada, February 12-16, 1995.
27. "Contributions to the Total Energy of Random Alloys," J. S. Faulkner, Yang Wang, and G. M. Stocks, NATO-ASI *Stability of Materials*, Corfu, Greece, June 25 -July 7, 1995
28. "Energetics of Alloys," J. S. Faulkner, Yang Wang, and G. M. Stocks, *First International Alloy Conference (IAC-1)* Athens, Greece, June 16-21, 1996.
29. "Comparison of the Electronic States of Alloys from the Coherent Potential Approximation and an Order-N Calculation" J. S. Faulkner, Nassrin Moghadam, Yang Wang, and G. M. Stocks, TMS Materials Week, Alloy "Modeling and Design" Symposium, September 14-18, 1997, Indianapolis, Indiana.
30. "Understanding the electronic states and properties of metallic alloys with the help of order-N calculations," J. S. Faulkner, N. Y. Moghadam, Yang Wang, and G. M. Stocks, presented at the Symposium on New Materials at CIMTEC '98, Florence, Italy June 2-6, 1998.
31. "TESTS OF THE POLYMORPHOUS COHERENT POTENTIAL APPROXIMATION" J. S. Faulkner, B. Ujfalussy, N. Y. Moghadam, G. M. Stocks, and Yang Wang, presented at the Second International Alloy Conference: An Interdisciplinary Approach to the Science of Alloys in Metals, Minerals, and Other Materials Systems,

Under the auspices of the United Engineering Foundation, Davos, Switzerland, August 8-13, 1999.

32. "The Mathematics of the Polymorphous Coherent Potential Approximation" J. S. Faulkner, presented at the 2001 TMS Annual Meeting: Hume-Rothery Award Symposium, "Electronic Structure and Alloy Properties" February 12, 2001.
33. "SHORT-RANGE ORDER PARAMETERS IN FCC BINARY ALLOYS," J. S. Faulkner, Silvia Pella, Aurelian Rusanu, and Yevgeniy Puzyrev Third International Alloy Conference, IAC3, Estoril, Portugal, June 30-July 5, 2002.
34. "Mean field approximations for the electronic states in disordered alloys," J. S. Faulkner, Silvia Pella, Aurelian Rusanu, Yevgeniy Puzyrev, Th. Leventouri, G. M. Stocks, and B. Ujfalussy, a paper presented at the Third International Workshop on Electron Correlations and Materials Properties, Kos, Greece, July 4-9, 2004, organized by Mikael Ciftan, Antonios Gonis, Nicholas Kioussis.
35. "Atomic displacements in alloys" Yevgeniy Puzyrev and J. S. Faulkner, invited talk presented at the Fourth International Alloy Conference (IAC-4), June 26-July 1 (2005), Kos, Greece.
36. "Green's function for a single scatterer", J. S. Faulkner, Y. Wang, A. Rusanu and G. M. Stocks, International Symposium and Workshop on Electron Correlations and Materials Properties of Alloys and Compounds, 9-13 July, Porto Heli, Greece.

SEMINARS

1. The University of Florida, Gainesville, Florida., December 1960.
2. The Oak Ridge National Laboratory, Oak Ridge, Tennessee, April 1962.
3. The Tennessee Academy of Science Meeting, Tusculum College, Johnson City, Tennessee, April 1964.
4. Florida Atlantic University, Boca Raton, Florida, April 1965.
5. The Ohio State University, Columbus,, Ohio., April 1966.
6. Auburn University, Auburn, Alabama, December 1967.
7. The University of Georgia, Athens, Georgia, March 1968.
8. The University of Tennessee, Knoxville, Tennessee, April 1968.
9. Florida Atlantic University, Boca Raton, FLorida, June 1968.
10. The University, Sheffield, England, November 1968.

11. The University, Leeds, England, February 1969.
12. The University, Sheffield, England, (2 seminars) February 1969.
13. The University, Athens, Greece, March 1969.
14. Aarhus University, Aarhus, Denmark, April 1969.
15. Chalmers Institute of Technology, Gothenburg, Sweden, (2 seminars) April 1969.
16. Norwegian Technical University, Trondheim, Norway, (2 seminars) April 1969.
17. Technical University of Helsinki, Otaniemi, Finland, April 1969.
18. University of Turku, Turku, Finland, April 1969.
19. University of Oulu, Oulu, Finland, April 1969.
20. Universito Degli Studi-Romo, Rome, Italy, May 1969.
21. Universito de Pisa, Pisa, Italy, May 1969.
22. Katholieke Universitet, Nijmegan, Netherlands, May 1969.
23. Der Vrije Universitet, Amsterdam Netherlands, May 1969.
24. Aerospace Research Laboratory, Dayton, Ohio, December 1969.
25. Battelle Memorial Institute, Columbus, Ohio, January 1970.
26. Florida Atlantic University, Boca Raton, Florida, February 1970.
27. The Oak Ridge National Laboratory, Oak Ridge, Tennessee, March 1970.
28. The University of Louisville, Louisville, Kentucky, November 1970.
29. Aerospace Research Laboratory, Dayton, Ohio, April 1971.
30. The Louisiana State University, Baton Rouge, Louisiana, October 1972.
31. The Oak Ridge National Laboratory, Oak Ridge, Tennessee, April 1973.
32. The Oak Ridge National Laboratory, Oak Ridge, Tennessee, March 1974.
33. The Los Alamos Scientific Laboratory, Los Alamos, New Mexico, July 1981.
34. John Hopkins University, Baltimore, Maryland, November 1981.

35. The Oak Ridge National Laboratory, Oak Ridge, Tennessee, August 1982.
36. Henry Krumb School of Mines, Columbia University, New York, New York, November 1983.
37. North Carolina State University, Raleigh, North Carolina, March 1984.
38. University of Bristol, United Kingdom, July 1985.
39. Institut fuer Festkoerperforschung der Kernforschungsanlage, Juelich, West Germany, May and June 1985.
40. Max Planck Institut fuer Festkoerperforschung, Stuttgart, West Germany, October 1985.
41. Technische Universitaet, Vienna, Austria, October 1985.
42. Institut fuer Nukleare Festkoerperforschung, Kernforschungszentrum, Karlsruhe, West Germany, January 1986.
43. SERC Daresbury Laboratory, Warrington, United Kingdom, February 1986.
44. The National Technical University of Athens, Greece, April 1986.
45. Materials Laboratory, General Electric Research Laboratory, Schenectady, N. Y., October 14, 1986.
46. Physics Department, University of Miami, November 6, 1986.
47. Naval Research Laboratory, November 13, 1986.
48. Materials Research Laboratory, University of Florida, February 5, 1987.
49. MARTECH, Florida State University, February 20, 1987.
50. Pratt-Whitney Research Center, October 19, 1987.
51. Broward Section, IEEE, Dania, March 10, 1988.
52. Physics Department, University of Florida, September 26, 1988.
53. Sigma Xi, Florida Atlantic University, October 10, 1989.
54. Physics Department, University of Miami, December 21, 1989.
55. Foundation for Research and Technology-Hellas, Crete, June 28, 1990.
56. Physics Department, University of Athens, Greece, July 4, 1990.

57. Physics Department, University of Athens, Greece, August, 1991 .
58. Physics Department, Polytechnical University of Greece, June, 1992.
59. Physics Department, University of Crete, Heraklion, Crete, Greece, July, 1992.
60. Physics Department, Florida Atlantic University, Florida, March, 1993.
61. Physics Department, University of Athens, Greece, June, 1994.
62. Physics Department, Florida Atlantic University, Florida, February, 1995.
63. Physics Department, Florida Atlantic University, Florida, September, 1995.
64. Physics Department, Florida Atlantic University, Florida, September, 1999.
65. Physics Department, Florida Atlantic University, Florida, September, 2002.
66. Physics Department, Florida Atlantic University, Florida, November, 2012

CONTRIBUTED TALKS

1. "Electron Energy Bands of One-Dimensional Random Alloys." J. S. Faulkner and J. Korringa, APS Meeting, Washington, D.C., April 1959.
2. "One-Dimensional Random Alloys," J. S. Faulkner, Washington Meeting of American Physical Society, April 27-30, 1964.
3. "Development in the Band Theory of Disordered Systems," J. S. Faulkner, Meeting of the Southeastern Section of American Society, Charlottesville, Virginia, November 1, 1965.
4. "Korringa-Kohn-Rostoker Band Theory Calculations," H. W. Joy, J. S. Faulkner, and H. L. Davis, International Symposium on Atomic Molecular and Solid State Theory arranged by University of Florida, Sanibel Island, Florida, January 16-21, 1967.
5. "Detailed Band Theory Calculations on Metallic Copper Using a Constant Energy Search," H. L. Davis, H. W. Joy, and J. S. Faulkner, American Physical Society Meeting, New York, January 30-February 2, 1967.
6. "Energy Band Calculations Using the KKR Method," J. S. Faulkner, H. L. Davis, and H. W. Joy, American Physical Society Meeting, Chicago, Illinois, March 27-30, 1967.

7. "Effect of Hydrostatic Pressure on the Fermi Surface of Metallic Copper," H. L. Davis, H. W. Joy, and J. S. Faulkner, American Physical Society Meeting, Washington, D.C., April 24-27, 1967.
8. "Constant Energy Surface for Aluminum by the Korringa-Kohn-Rostoker Method," J. S. Faulkner and H. L. Davis, American Physical Society Meeting, Berkeley, California, March 18-21, 1968.
9. "Effect of Uniaxial Tension on the Fermi Surface of Metallic Copper," H. L. Davis and J. S. Faulkner, American Physical Society Meeting, Berkeley, California, March 18-21, 1968.
10. "Two Particle Scattering Terms in Perturbation Theory of Electronic States in Disordered Systems," J. S. Faulkner, American Physical Society Meeting, Dallas, Texas, March 23-26, 1970.
11. "A Simple Method for Symmetrizing KKR Band Theory Calculations," J. S. Faulkner, Meeting of the American Physical Society, Cleveland, Ohio, March 29-April 1, 1971.
12. "Adding Group Theory to KKR Band Theory Programs for FCC and BCC Structures," J. S. Faulkner and P. W. Milonni, International Symposium on Quantum Chemistry and Solid State Physics, Sanibel Island, Florida, January 1972.
13. "Electronic Densities of States of Ag-Pd Alloys Using the Coherent Potential Approximation," G. M. Stocks, R. W. Williams, and J. S. Faulkner, Ninth Annual Solid State Physics Conference, Manchester, England, January 4-6, 1972.
14. "Electronic Densities of States of Ag-Pd Alloys," G. M. Stocks, R. W. Williams, and J. S. Faulkner, American Physical Society Meeting, Atlantic City, New Jersey, March 27-30, 1972.
15. "Comments on the Coherent Potential Approximation for Dilute Alloys," J. S. Faulkner, American Physical Society Meeting, Atlantic City, New Jersey, March 27-30, 1972.
16. "KKR Band Structure Calculations for Complex Crystals," J. S. Faulkner, American Physical Society Meeting, San Diego, California, March 19-22, 1973.
17. "Studies on Disordered Systems Using Clusters of Muffin Tin Potentials," J. S. Faulkner, G. S. Painter, W. H. Butler, and W. A. Coglan, Conference on Disordered Metallic Systems, Strasbourg, France, September 10-15, 1973.
18. "Electronic States of Sub-Stoichiometric Compounds," J. S. Faulkner, G. S. Painter, and W. H. Butler, American Physical Society Meeting, Philadelphia, March 25-28, 1974.

19. "Multiple Scattering Cluster Calculations of the Densities of States of Some Transition Metal Compounds," G. S. Painter, J. S. Faulkner, W. H. Butler, and W. A. Coghlan, American Physical Society, Philadelphia, March 25-28, 1974.
20. "Electronic States of Sub-Stoichiometric Compounds and Application to Palladium Hydride," J. S. Faulkner, American Physical Society Meeting, Denver, Colorado, March 31-April 3, 1975.
21. "Exact Spectral Density Function for a One-Dimensional Model of an Amorphous Solid," D. G. Hall and J. S. Faulkner, International Conference on Structures and Excitations of Amorphous Solids, Williamsburg, Virginia, March 25-27, 1976; American Physical Society Meeting, Atlanta, March 29-April 1, 1976.
22. "A Band Theory Calculation of the Fermi Surface of Technetium," J. S. Faulkner, American Physical Society Meeting, Atlanta, March 29-April 1, 1976.
23. "Spectral Density Functions for Amorphous Systems," D. G. Hall and J. S. Faulkner, Conference on Neutron Scattering, Gatlinburg, Tennessee, June 6-10, 1976.
24. "Krein's Theorem and Cluster Calculations," J. S. Faulkner, American Physical Society Meeting, Washington, D. C., March 27-30, 1978.
25. "Linearizing the KKR Band Theory Equation," J. S. Faulkner, American Physical Society Meeting, Chicago, Illinois, March 18-22, 1979.
26. "Electrical and Thermal Resistivities: Solutions to the Boltzmann Equation for Electrons in Metals," F. J. Pinski, P. B. Allen, W. H. Butler, and J. S. Faulkner, Poster Session, American Physical Society, Columbus, Ohio, October 8-9, 1979.
27. "New Formulas for Calculating Properties with the KKR-CPA: Algebraical," J. S. Faulkner and G. M. Stocks, American Physical Society, New York, March 24-28, 1980.
28. "New Formulas for Calculating Properties with the KKR-CPA: Numerical," G. M. Stocks and J. S. Faulkner, American Physical Society, New York, March 24-28, 1980.
29. "Pivoted Multiple-Scattering Equations and Band Theory," J. S. Faulkner, American Physical Society, Phoenix, Arizona, March 16-20, 1981.
30. "Pivoted Multiple-Scattering Equations and Band Theory Including the Shape of the Unit Cell," J. S. Faulkner, American Physical Society, Dallas, Texas, March 8-12, 1982.
31. "Non-Muffin-Tin Effects in Transition Metals," D. M. Nicholson and J. S. Faulkner, American Physical Society, Detroit, Michigan, March 26-30, 1984.
32. "An Algebraic Improvement to the Quadratic KKR Formalism," J. S. Faulkner and D. M. Nicholson, American Physical Society, New Orleans, Louisiana, March 21-25, 1988.

33. "Study of Crystal Impurities with the Quadratic KKR Method," A. N. Andriotis and J. S. Faulkner, Fourth Panhellenic Conference on Solid State Physics, Athens, Greece, September 20-23, 1988 Proceedings p. 435.
34. "Impurity Calculations Based on the Quadratic-Korringa-Kohn-Rostoker Formalism," J. S. Faulkner and A. N. Andriotis, American Physical Society, Saint Louis, Missouri, March 20-24, 1989.
35. "The growth habits of the polycrystalline Y-Ba-Cu-O superconductors". Th. Leventouri, M. Calamiotou, V. Perdikatsis and J. S. Faulkner, American Physical Society, Saint Louis, Missouri, March 20-24, 1989.
36. "The Quadratic Korringa-Kohn-Rostoker Band Theory Method Applied to Complex Lattices," J. S. Faulkner, Y. Wang, E. A. Horvath, and D. M. Nicholson, American Physical Society, Anaheim, California, March 12-16, 1990.
37. "New Studies of the Bulk Orientation in the YBCO Superconductor." Th. Leventouri, E. Liarokapis, J. S. Faulkner, F. D. Medina, L. Martinez, M. Calamiotou, V. Perdicatsis, B. D. Landreth, Y. S. Hascicek and L. R. Testardi. Bull. of the APS, **35**, No 3, 632, (1990).
38. "Studies of the Bulk Orientation in Y and Bi superconducting phases" Th. Leventouri, O. Papageorgiou, E. Liarokapis, J. S. Faulkner, H. Lu, M. Calamiotou, N. Guskos, L. Martinez, V. Perdicatsis, B. D. Landreth. Garmisch-Partenkirchen, May 9-11, 1990: ICMC 90 Topical conference. High-temperature superconductors.
39. "Structure and Properties of Bulk Oriented $\text{YBa}_2\text{Cu}_3\text{O}_x$ " Th. Leventouri, E. Liarokapis, J. S. Faulkner, M. Calamiotou, V. Perdicatsis, Y. S. Hascicek, L. D. Testardi. Strasburg, France, May 29-June 1, 1990: European MRS Spring meeting.
40. "Bulk Texture Detection by Raman Spectroscopy", DARPA workshop on 'HTS Bulk Technology Development: Formulating a Strategy Leading to Defense and Commercial Applications.' Santa Fe, New Mexico, January 31-February 1, 1991.
41. "Accelerating the quadratic Korringa-Kohn-Rostoker Band Theory Method" E. A. Horvath, J. S. Faulkner and D. M. Nicholson, American Physical Society, Cincinnati, Ohio, March 18-22, 1991.
42. "Applications of the quadratic Korringa-Kohn-Rostoker method to band theory calculations for complex crystals" Y. Wang, J. S. Faulkner, and D. M. Nicholson, American Physical Society, Cincinnati, Ohio, March 18-22, 1991.
43. "Calculations on the single-site potential for the Korringa-Kohn-Rostoker coherent potential approximation from an extended Green's function." Y. Wang, J. S. Faulkner, G. M. Stocks, and D. M. Nicholson, American Physical Society, Indianapolis, Indiana, March 16-20, 1992.

44. "The Direct Monte Carlo Method for Calculating Alloy Phases," J. S. Faulkner, Eva. A. Horvath, Yang Wang, and G. M. Stocks, NATO-ASI, Rhodes Greece, June 21-July 3, 1992.
45. "Impurity calculations with the quadratic Korringa-Kohn-Rostoker band theory technique," A. N. Andriotis, J. S. Faulkner, and Yang Wang, European Research Conference on "ELECTRONIC STRUCTURE OF SOLIDS:At the Computational Leading Edge," Clare College, Cambridge, Sept. 12-17, 1992.
46. "Upologismoiv se crustuvllou"me prosmeivxei" me thn deuterobavqmia prosevggish th" meqovdon twn Korringa-Kohn-Rostoker," A. N. Andriotis, J. S. Faulkner, and Yang Wang, VII Panhellenic Conference on Solid State Physics, Sept. 23-26, 1992, Ioannina, Greece.
47. "The scattering matrices for a non-spherical scalar-relativistic potential," J. S. Faulkner, American Physical Society, Pittsburgh, Pennsylvania, March 21-25, 1994.
48. "Observations on the Screened Korringa-Kohn-Rostoker Method," Nassrin Y. Moghadam, G Malcolm Stocks, B. Ujfalussy, J. S. Faulkner, American Physical Society, Detroit, March 17-21, 1997.
49. "Calculations with the Polymorphous Coherent Potential Approximation (PCPA)" J. S. Faulkner *Alloy Research Center and Department of Physics, Florida Atlantic University, Boca Raton, FL 33431*, B. Ujfalussy, N. Y. Moghadam, and G. M. Stocks *Metals and Ceramics Division, Oak Ridge National Laboratory, Oak Ridge, Tennessee 37830*, Yang Wang, *Pittsburgh Supercomputing Center, Pittsburgh, PA 15213*. American Physical Society, Atlanta, GA, March 20-26, 1999

TECHNICAL REPORTS

1. "The form of Exact Solutions to Schroedinger's Equation and Problems in Magnetism," J. S. Faulkner, Report 29, Quantum Theory Project, Gainesville, Florida (August 1962).
2. "A Note on the Variational Principle," J. S. Faulkner, Report 33, Quantum Theory Project, Gainesville, Florida (November 1962).
3. "Adding Group Theory to KKR Band Theory Programs for FCC and BCC Structures," J. S. Faulkner and P. W. Milonni, ORNL-TM-3589 (November 1971).
4. "Theoretical Studies of Metallic Alloys," Progress Report, June 1989-December 1989. J. S. Faulkner and L. T. Wille, DOE/ER/ 45392-1.
5. "Theoretical Studies of Metallic Alloys," Progress Report, January 1990-December 1990. J. S. Faulkner and L. T. Wille, DOE/ER/ 45392-2.

6. "Theoretical Studies of Metallic Alloys," Progress Report, June 1, 1989 - July 24, 1991. J. S. Faulkner and L. T. Wille, DOE/ER/ 45392-3.
7. "Total energy calculations for metals, alloys, and ceramics," Yang Wang, G. M. Stocks, D. M. Nicholson, and J. S. Faulkner, Final report for SURA/ORAU/ORNL summer cooperative program, 1991.
8. "Total energy and phase diagram calculations for binary alloys," Yang Wang, J. S. Faulkner, G. M. Stocks, and D. M. Nicholson, Final report for SURA/ORAU/ORNL summer cooperative program, 1992.
The Polymorphous Coherent Potential Approximation:
A New Theory for Metallic Alloys
9. "The Polymorphous Coherent Potential Approximation: A New Theory for Metallic Alloys," J. S. Faulkner, Final report for SURA/ORAU/ORNL summer cooperative program, 2001.
